LEGACY PACKAGES

ABOUT US

You have memories of your newborn. You have the special moments of your wedding. Now immortalise your life with our Legacy Package.

Everyone's journey has been unique and the Legacy Package has been tailored to discover the hidden stories and journey that your life has undertaken. From the early days of childhood, through uncertain teenage years, the trials of adolescence to the latter stages of life. We want to uncover the journey that shaped you. The memories that formed you, the lessons that you took and the heart felt moments that defined and refined your very person.

We shoot everything with high quality professional video, audio and lighting to ensure your story is one that shows every detail of voice and nuance of every physical movement.

Don't leave it too late. Tell your stories, unravel your past and most importantly, leave your legacy for your family and friends to treasure forever.

We look forward to capturing your legacy with you.

Dave
